Redesign of the Traffic Prosecution website

Problems:

- The design is outdated and unsuitable the current era.

- *Undefined icons and unclear.

   *The "More" icon is unclear.

   *The icons for latest news, audio bulletin, contact us, and survey are undefined and unclear.

- *Old and outdated design.

- *Unorganized and random icons.

   ## Additions:

- *A clear and consistent main bar that appears when scrolling through the page, containing the search bar, site navigation information, and login functionality.

- *Edit the icon for electronic and guidance services.

- *In addition to the services offered by the website.

- *Clear and specific icons represent the services offered by the website.

- *Clear display icon for more.

- *Explanation of the "latest News" icon and the addition of a "Read The full article" button.

- *Explanation of the "Other Services" Icon.

- *Explanation of the poll icon.

- includes a prominent 'Geographical Services' section featuring an interactive map, search filters for 'Governorate', 'Unit Type', and 'All', along with 'Delete Search Properties' and 'Interactive Map' buttons.

- *Arranging, sorting, and dividing icons into sections and updating icons.
